IZ-3400**HOT AIR GUN**

Model

- iZ-3400

Colorway

Rated Voltage	230 V
Frequency	50 / 60 Hz
Power	3400 W
Temperature	20 - 620 °C
Air Volume	Max 360 L/min
Noise	≤ 65 Db
Net Weight	1.6 Kg
Motor	Brush
Temperature Control	Open loop
Certificate	CE
Warranty	One year

OPERATION STEPS

1.Start Up

Connect Power Supply

Turn On the Power Switch

Rotate The Potentiometer Rightward

Preheat 3 Minutes

2.Shut Down

Rotate The Potentiometer Leftward

Twist The Potentiometer to "0"
Then Wait 5 Minutes

Turn Off The Power Switch

Unplug The Power Cord

PRECAUTIONS

Please confirm that the machine is turned off and unplugged before disassembling the welding machine, so as not to be injured by live wires or components inside the machine.

The welding machine generates high temperature and high heat, which may cause fire or explosion when used incorrectly, especially when it is close to combustible materials or explosive gas.

Please do not touch the air duct and nozzle (during welding work or when the welding machine has not completely cooled down), and do not face the nozzle to avoid burns.

The power supply voltage must match the rated voltage marked on the welding machine and be reliably grounded. Connect the welding machine to a socket with a protective ground conductor.

In order to ensure the safety of the operators and the reliable operation of the equipment, the power supply at the construction site must be equipped with a regulated power supply and a leakage protector.

The welding machine must be operated under the correct control of the operator, otherwise it may cause combustion or explosion due to high temperature.

It is strictly forbidden to use the welding machine in water or muddy ground, avoid soaking, rain or damp.

QUALITY ASSURANCE

This product guarantees a 12-month shelf life from the day it is sold to consumers. We will be responsible for failures caused by material or manufacturing defects. We will repair or replace defective parts at our sole discretion to meet the warranty requirements.

The quality assurance does not include damage to wearing parts (heating elements, carbon brushes, bearings, etc.), damage or defects caused by improper handling or maintenance, and damage caused by falling products. Irregular use and unauthorized modification should not be covered by the warranty.
